The Challenge

YOU of Hibbing High School's Class of 1976
are re-discovering America in the celebration of our nation's 200th Birthday!

YOU of the Class of 1976
are also celebrating the 73rd Anniversary of Hibbing High School which the pioneers — new Americans from many lands — struggled to establish in 1903.

YOU of the Class of 1976 and ALL Americans:
honor the Founding Fathers who the Declaration of Independence and the Constitution which created this Republic, the UNITED STATES OF AMERICA — and — honor the later pioneers who established schools — knowing that not ignorant but only alert, literate, intelligent citizens could hope to carry on a government by the people.

YOU of the class of 1976
come from the hardy stock of some 38 ethnic groups which make up Hibbing. The richness of their individual heritages has never been melted down. Their infusions of diversity, thankfully have made rich multiculture which Hibbing people now enjoy. This is American Culture!

YOU of the Class of 1976
are a part of a long line of Hibbing students: 362 Souls of the newly incorporated village of Hibbing (1893) established the first school (1894) over Carlson's Grocery store in North Hibbing. They appointed Miss Susan Murphy to teach all of their children reading, writing, and figuring. There were 14 students — 5 to 16 years of age. Words of Wisdom were printed in the old "copy" books; (Ideas as pertinent in 1976 as in 1893)

"Everyone of us is individual and unrepeatable!"
"There can be no liberty without responsibility."

YOU of the Class of 1976
will bring the total to 15,000 students who have graduated from Hibbing High! Over the years, to the tools of reading, writing and figuring, great and inspired teachers added seeing and listening courses and a wealth of extra curricular activities.

YOU of the Class of 1976
are no longer required to cram your memory with unneccessary details —but — are required to THINK!

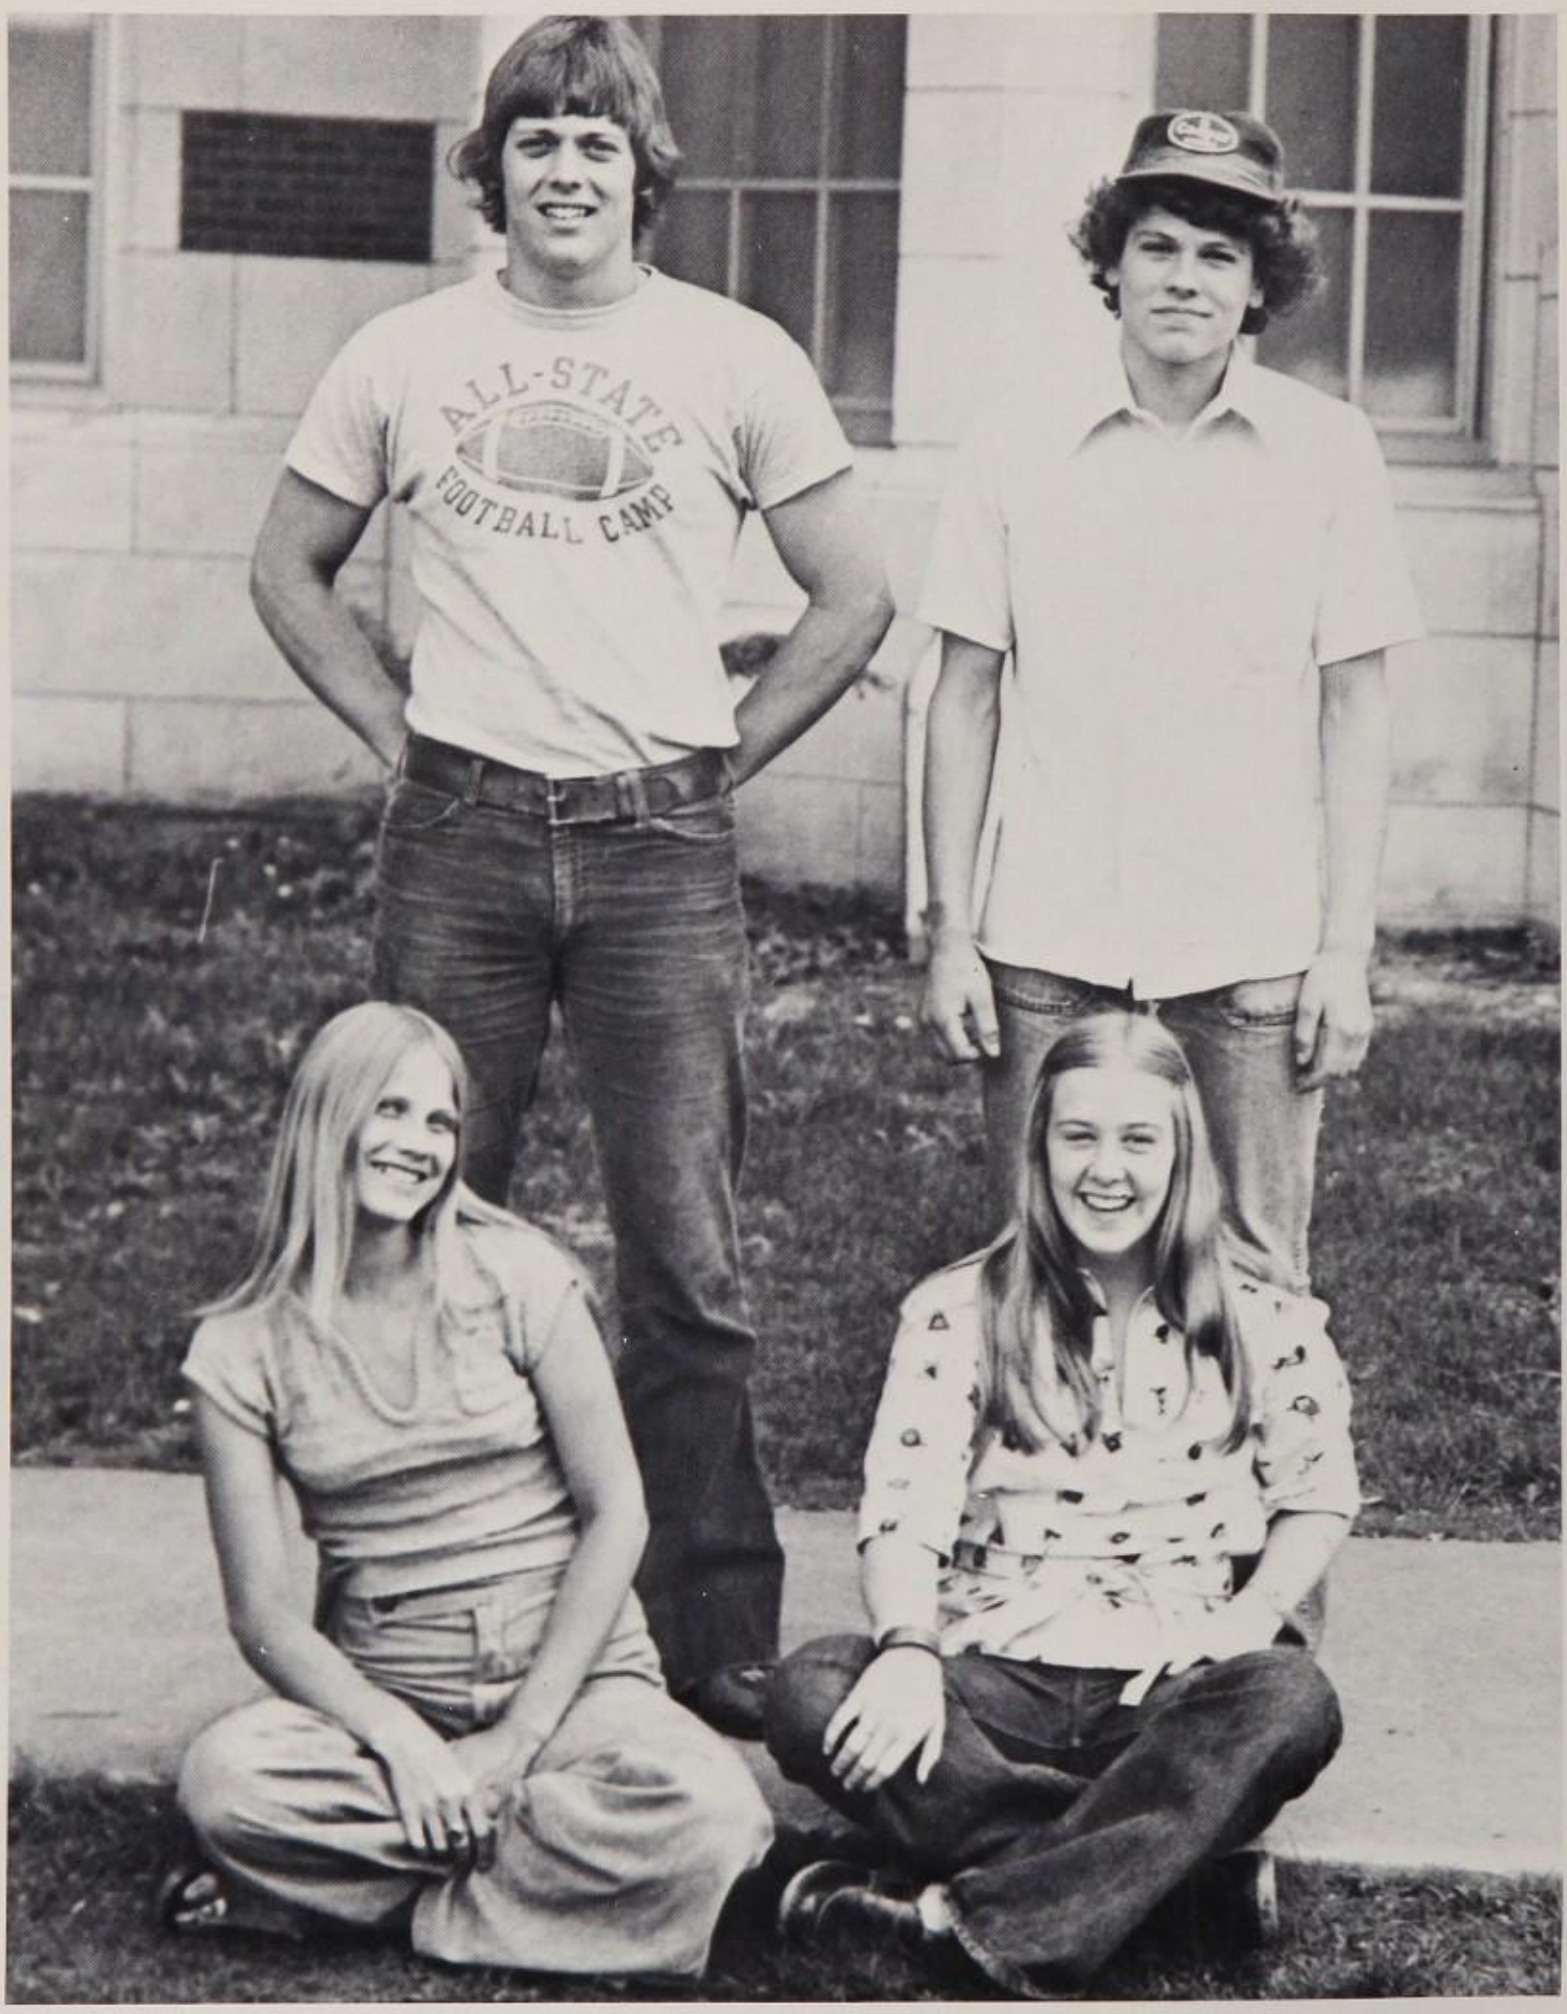
YOU in 1916 a Junior College was established, in 1962 a Technical School was added to encourage

YOU of the Class of 1976
to continue your learning.
In 1968 Hibbing High School students of that year accepted the Bellamy Award for the many years of work in American Citizenship. A distinction which is passed on to —

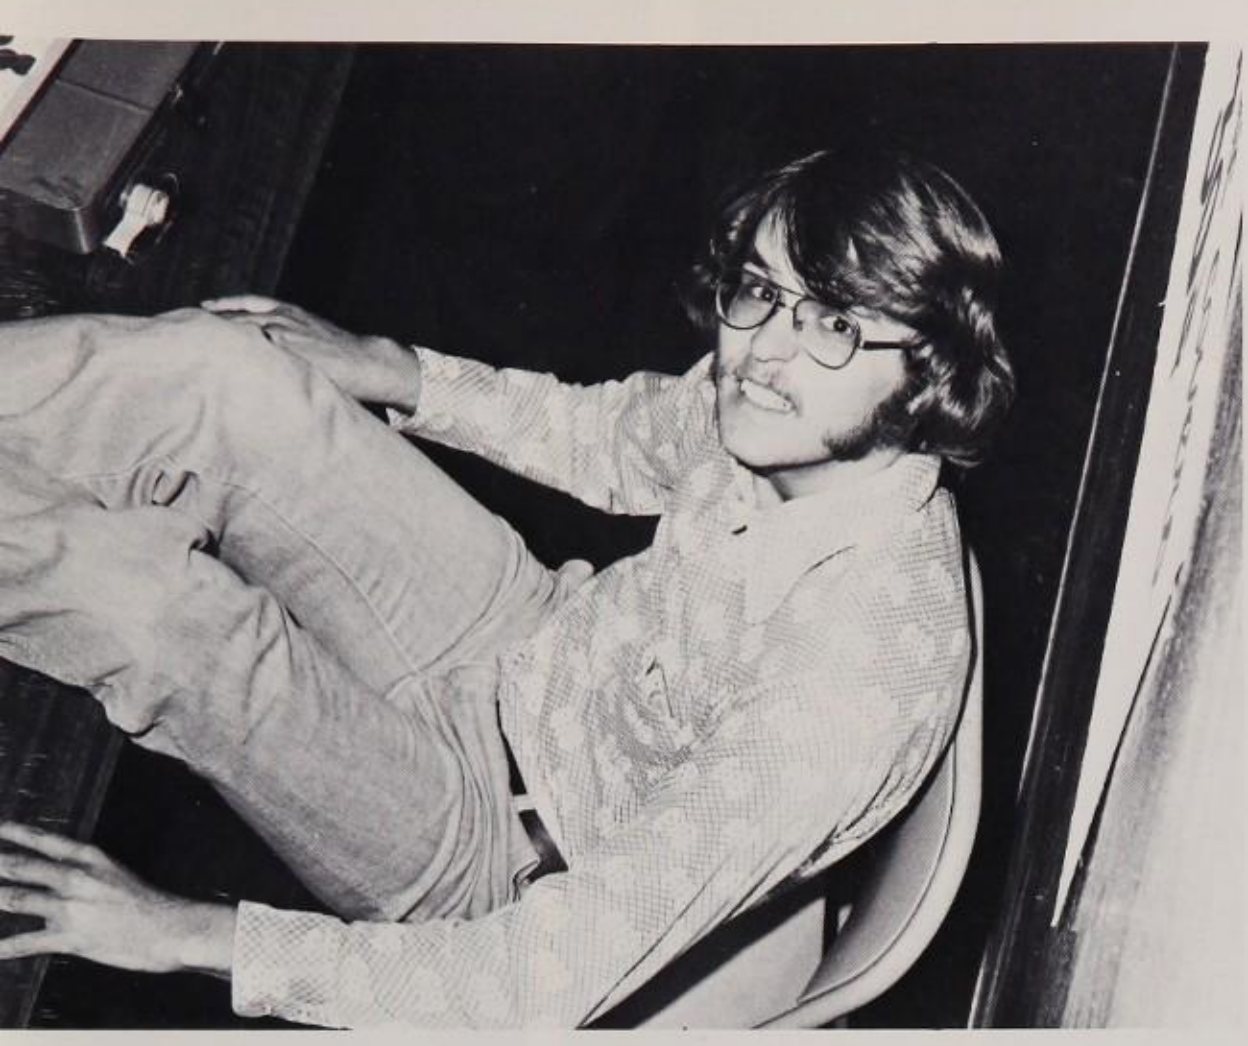
YOU of the Class of 1976
for your re-dedication to basic American Priciples.
Your preccessors are calling —

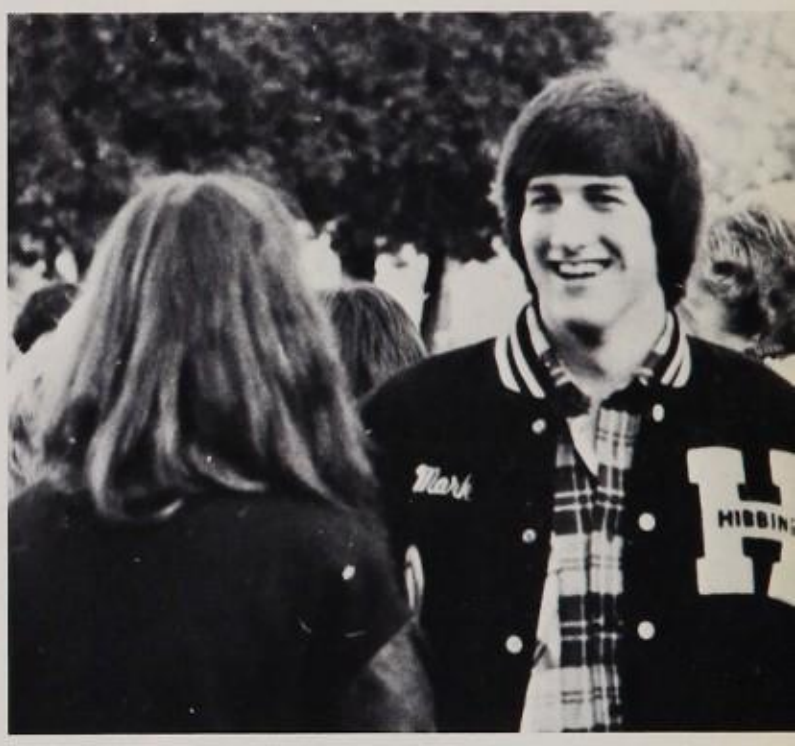
YOU of the Class of 1976 and your contemporaries around the world to accept the grave responsibility to lead toward a better understanding of this troubled world.
AMERICA'S and the WORLD'S TOMMORROW is

YOU Mrs. Silva Nickoloff

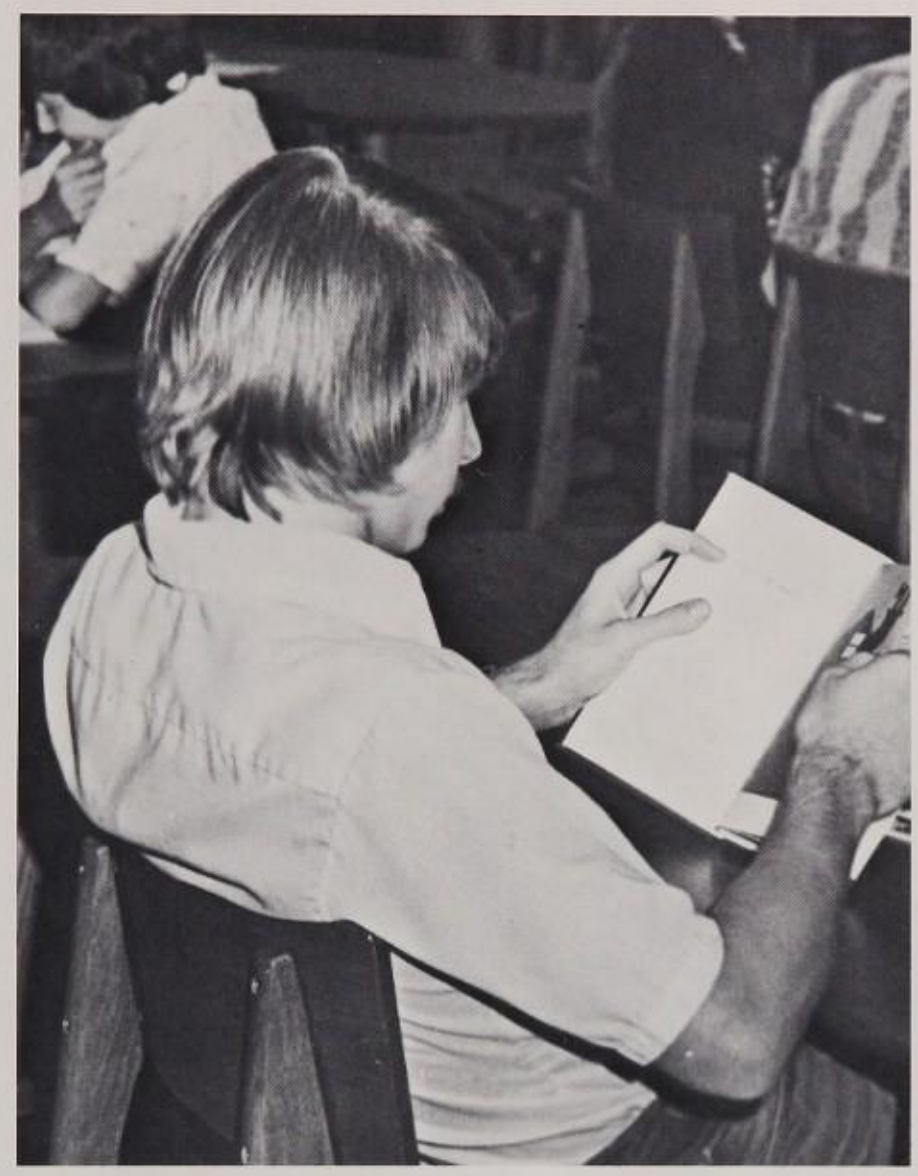


The 1975-76 Senior Class Officers: Jay Klein — Vice-President, John Pritchard — President, Julie Brecht — Secretary, Therese Horgan — Treasurer. The big plans this year are for the Class Picnic, and the plans are big!





Mark

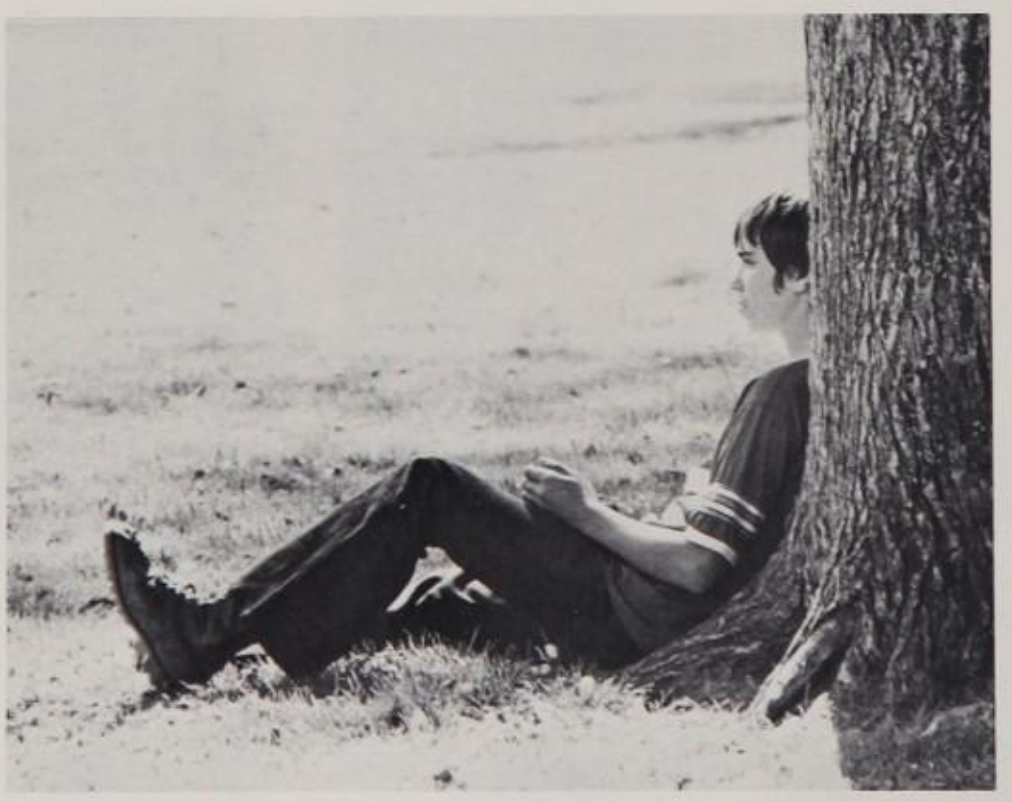


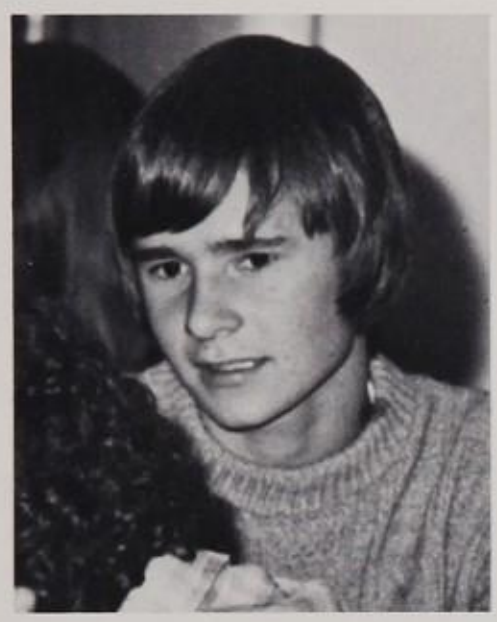
The smiling faces of the junior class officers represent the happiness of all juniors, as they realize there is only one final year left. Vice-President Dean Laliberte is watching over his harem, From Left To Right; Treasurer Sue Smilanich; President Therese Pajunen; and Secretary Lynn Spearman.

Carol,
You know, I really wasn't avoiding you. I wouldn't sign your hematite, I'm sure. Lucky you, always had an invitation when you want an invitation or else I would have starved. Dude, get married, okay? I can get fat so much now. I really get fat! And I was glad to hear that you would not see how you can eat so much and still see little David Paco and Monk and Frank. After that save me down. After that save me the last time we played ever turn me down. After that save me the last time we played you made the last time we played Bocci, I think you should start your own team, you would never get beat. See this summer!

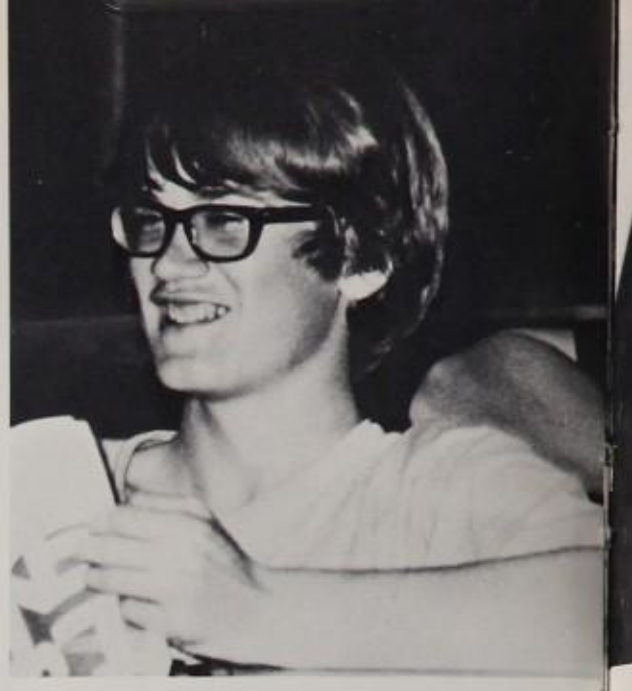
Jeff

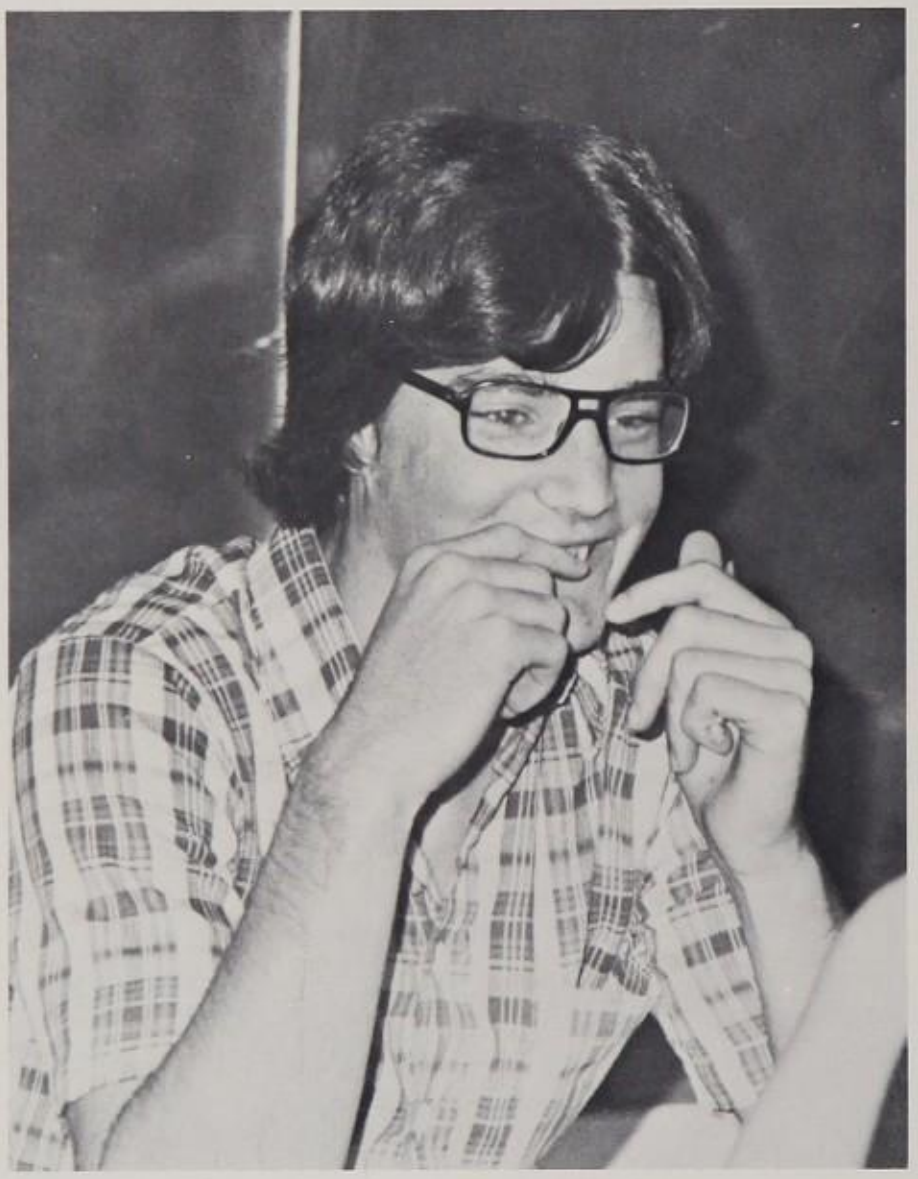
Chile

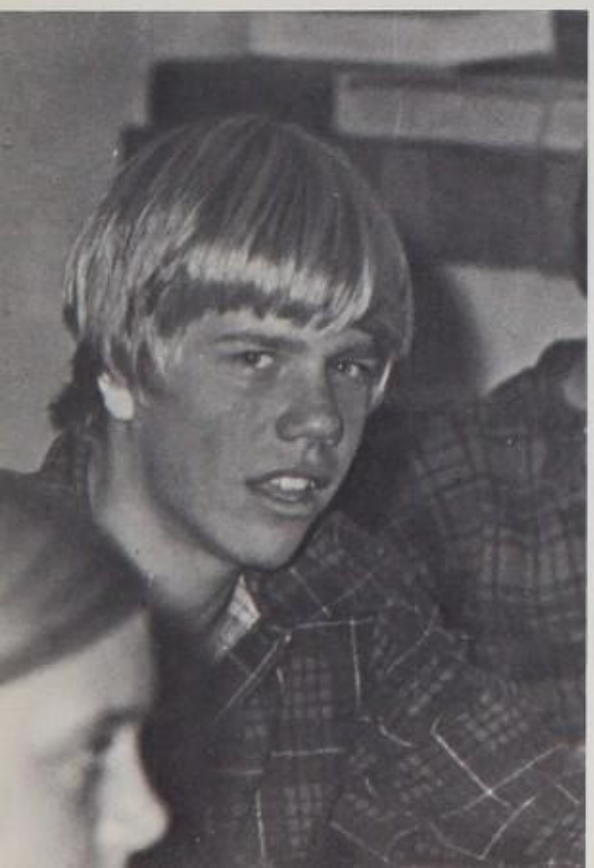


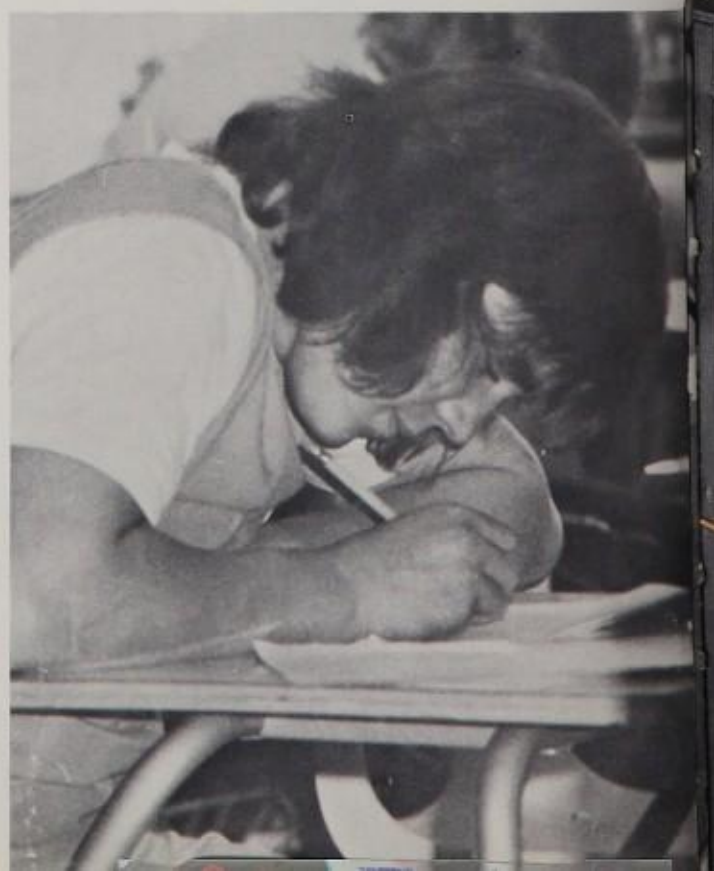


The officers for the Sophomore class are From Left To Right: Naomi Breed, secretary: Shelly Techar, president: George Lah, treasurer: and Patty Prince, vice-president. The big plans for the tenth graders this year were, to make it through the next two years.









GUSTAVUS

Freshman class officers: Randy Tollin (Standing) President; Raquel Kotula, Secretary; Dan Mickelson, Vice-President. Lets hear a big groan for the people with 3 years left. (Ha, Ha)

Carol,
Remember in American Literature, Mrs. Cartwright was so dumb! I don't think one person listened in that class. Ever hour was so boring. Mr. Richen was so much fun. Maybe we can be lab partners again sometime. I kept falling asleep. I hope we can get out at the same time. Can you believe we only have one year left. Well I guess I'll see you there. I wouldn't miss that for the world. Have some classes and junior high is behind us. Take care. See you there. Love, Marsha

Carol,
It was nice to have you in another class. Have a great summer. See ya next year -
A-10,

You lose someone dear to you,
A change occurs within your heart.
Where once there was friendship,
You now feel pain.
You want to forget the pain.

Forget him who causes that aching pain, for
The pain hurts, the burden is heavy; But,
Don't forget!
Remember him,
And in remembering
Find comfort.
Please
Bear his pain,

Remember him, and
Pray for his soul,
For he will live forever in the hearts of
His friends;
He'll watch over us and protect us.
He is everlasting — as one day
So we will be.
And his true friends will join him
And once again unite because of life on earth —
And death — are only temporary and
One day we will all live and
Celebrate!

Good-bye, for now my friend;
There is love in our hearts.

Carol,

Boy am I glad to get out of school. This year Stutzman doesn't have any classes. I hope though that we "wgether" will probably see you this summer at Dales. But if I don't have a great summer and take care of Brian. Don't work too hard

See ya

What kind of Material is your shot make of? Just a joke. Do you remember the dumb things I did when I liked Julie Casey. She couldn't stand me + you didn't have the least to tell me. Thanks for the note in Chemistry. Poor Myron, if he only knew she didn't teach me one thing.

I sorry you entered my class & changed my whole way of life. Boy did we get spried By Myron Mon. he can't stand us

See ya with Brian

Carol,
remember
9th grade and mrs.
Erickson and how she told
me I was as busy as a bee?
Or the only class I had you
in this year was spanish and we
sit by each other. maybe next
year you'll really a nice, cute kid - I know
to say the typical rematte thing
around - or maybe we can get together
the class ends and play soccer or more
summer piñatas. we'll be seeing you
Summer (I'm sure you will).
love
Lynn

Dear Carol,
You are the shocks
Boy am I glad
shot on my
nights parking on those dirt roads
But it was worth it. I didn't know.
me, even though you complained
being flat your other features made
up for it.

Ha!)

Carol,
No remarks this year about Mr. Berg and "Flats." Just want to say its been an experience having you in 2 classes this year. Remember what a nice, quiet girl you used to be back in 10th grade until you got a hold of me! (I haven't been the same since, Brette.) I hope I'll get you in a class next year, but if I don't, have a great summer, and don't forget to invite me to your Bob's wedding. (The kids will all probably be

Carol,

Well, I really don't know what to write, cause it's so hard to express what you feel in words! I just want you to know that I treasure all the good times we've had together, and I'm really glad that they were possible. It's really great to have you around to tell all my troubles to, and you deserve a medal for listening to so many! You've been a super friend to me, and I can't thank you enough for all you've done for me when I was really down. You take extra care of yourself, and you call me anytime you need a shoulder! Love ya always, and be sure to keep in touch with me this summer!

Up and over the hill. Isn's it fun to run long distance in 20 degree weather, 30 mile-an-hour wind and snow? It's not always that bad of course, sometimes it doesn't snow!

HOMECOMING

This is the "TeePee-Chorus Line," it's so much fun going to the annual Homecoming Picnic. These girls in the 'Chorus Line' seem to be having a pretty good time.

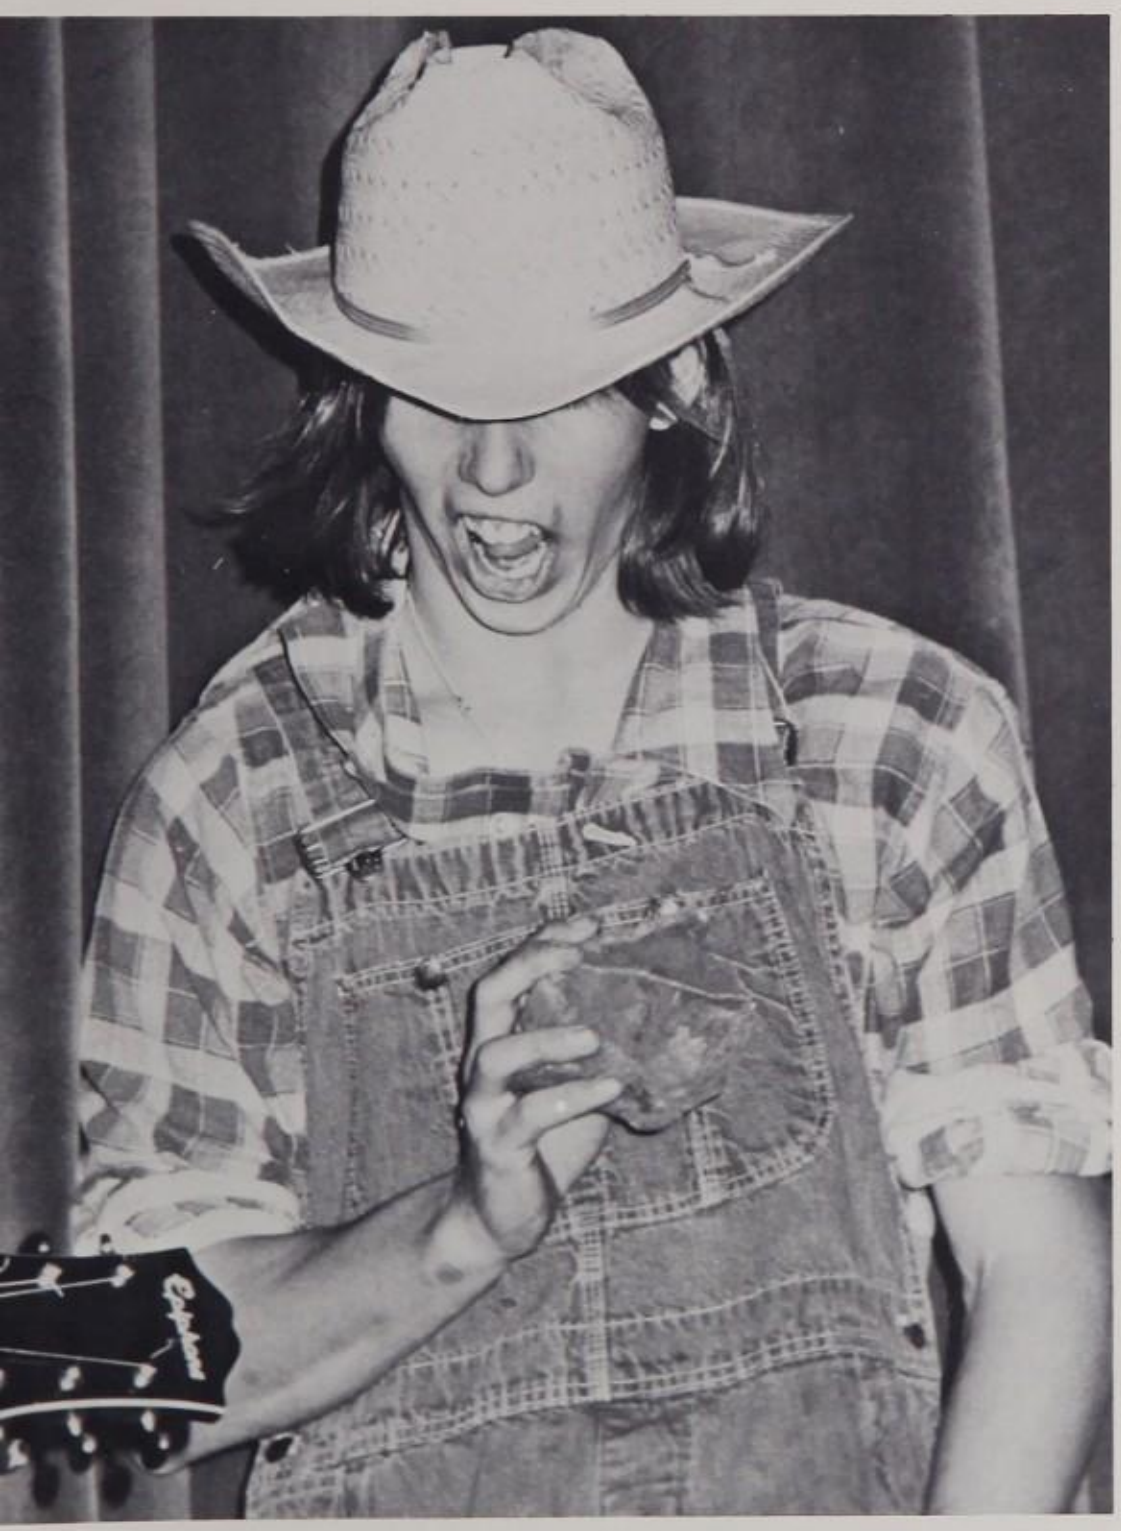
Joan Lacika on 'Cowboys and Indians' Day. It's hard to be 'foxy' dressed like a cowboy.

Robin Janesky and Therese Horgan, a definite two in the Homecoming program. Between the passing of the bottle and the jokes, the show moved real smoothly along.

Mr. Lah even went to the TeePee Toast. Here he is telling the guys to keep out of trouble. An impossible mission even for the principal of the school.



Here's Jerry Vosen, he seems to want to eat the rock. But really he's doing a skit with someone on the other end of this guitar.

Above. And here is the other end of the guitar, Hey it's Rich Nelson. He did quite a job of singing the 'Taconite Blues' even with Jerry around. Below. Debbie Peloquin and Nancy Anderson. "Gosh Nancy, I didn't know you still were going with him!"

Coach Gail Nucech seems a little worried about the game. Deb Houghton, Judy Pulis and Laurie Javorina surround her. With the Hibbing team I'm sure there's nothing to worry about.

One of the B-Squad volleyball players bats the ball into the awaiting hands of the opponent. To bad it's against the rules to catch the ball.

In response to our letter, Mr. McDermott says the 1975-76 year should be just as good, if not better than last year since we lost only one letterman, Bill Vogel, to graduation.

Above: Tom Sachs with a look of wonder, "Will I make my 3 ft. putt?"
Below: It's hard enough to putt on a good green, let alone out in the rough!

Notice the backswing and the position of the feet in this backyard practice session.

Carol,
Well as one more year comes to a close, I sit here trying to think of what to write. I know we'll see each other this summer and next year so it's sure not good-bye. If we can get through two years of Campbell we can do anything. I'll see you this summer.

Love,
Joreen

TRACK

"Who ever said there was a generation gap?" ask Bob Dickie, Mr. Knezovich, and Tom Joseph as they display their winning smiles and warm affections for each other.

Members of the track team look on as Keith Belanger is about to inform them what the "good, old earth" tastes like as he plunges headlong into a back to nature spree.

Jim Sella looks on as two of his buddies duck to avoid the wildly waving wings of this unidentified flying object.

Mike Sandor, Above, and Jim Sandor, Below, prove that track is not just a hop, skip and a jump, but is an excrutiating and energetic sport.

Oooops ... Deer River girl makes Hibbing Hematite.

Deb Houghton, "On your mark, get set," Deb's a great contributor to her team. Below. Those cheerleading jumps sure help Kim Stokes. "Look you guys, I can fly!"

Kim Shallman in first place, Nikki Hysjulien in second, how can we loose? Kim and Nikki will be with the H.H.S. team for two more years.

IN MEMORIAM
GLENN McKAIN
1931-1975

We can only just begin to realize how close Mr. McKain was to all of us. As a coach, teacher, and friend, he gave all he could to his students and colleagues, but he asked for very little in return. We are glad to have had the fortune to be a small part of his life, and let him be a great part and guiding force in ours.

LOOKING AHEAD

The Bicentennial Anniversary of this nation is a good occasion to ask what the fundamental values of our society have been, what they are, and what they will be tomorrow. While looking ahead, remember that today is important because what is achieved today will determine what tomorrow will be like.

"Yesterday is already a dream and tomorrow is only a vision. But today, well lived, makes every yesterday a dream of happiness and every tomorrow a vision of hope."

Because change is coming with great rapidity, the world and the way people live in it will be different tomorrow. Whether we like it or not, change will result in the modification of our ways of thinking and doing things. While there may be much uncertainty ahead, we must believe that there will be opportunities for a successful future. There may be valid reasons for being somewhat pessimistic about the immediate future. However, we should look with hope and confidence at the long run.

A syndicated newspaper editorial indicated that:

"American life now and in the future must be far more than a money game or a space spectacular. It must rest on achievement, not ease; on human betterment, not materialistic acheivement."

The worth of our society will be determined by the richness and variety of life it offers to each individual. Genuine human growth occurs when individuals minimize concern for themselves and maximize their concern for others. Every human person should have a lifelong moral obligation to use his or her talents, training, and time to serve the needs of the whole human family. True brotherly love practiced by everyone could result in peace throughout the world.

Well we have been friends for along time, maybe even too long. Just kidding. I'm glad I had you in Algebra + homeroom, but it would have been better if I had you in more classes, but what can you do? Some time I'll have to see you at Bennet Park, so I can wear your cool sunglasses. Okay? I'll go back in time, remember all the fun we had when we went to Cobb-Cook? When you always used to go in the cloakroom with all the boys. Boy were you a hustler. Being a patrol + playing king on the Hill. What a joke! Well I suppose that's about enough of the past because I should be talking about the present + future. You are one of my real good friends, + I hope it stays that way for along time. I hope you agree. I never really see you at that many parties, but for sure that I... have to change. Right? You better →
